

Matthew Greenberg

Full Stack Web Developer

Experience

2012-08 -
2017-08

Network Administrator / Manager

Kellin Communications - Wireless Internet Service Provider

As a key asset to the growth and expansion of the company over the past 6 years, I became a role model, leading my fellow employees by example.

Responsible for:

Developing / Refining the customer acquisition & retention process
Managing both field installation technicians and customer service representatives.

Deploying and monitoring wireless network components.

Troubleshooting large scale network outages and residential affairs.

Redesigning the Company Website - Kellin.net in 2015.

Researching new market trends, products, and services.

Maintaining the company email and calendar platform.

Products and Technologies Used:

Cisco, Cambium & MicroTik Products
SNMP Tools (PRTG / Cacti / cnMaestro)
Freeside Billing Software
Slack

2011-10 -
2012-06

Technical Support - Remote Position

Jaguar PC - Web Hosting (jaguarpc.com)

Sold, Setup & Managed:
Shared Hosting (Cpanel / WHM)
Virtual Private Servers
Dedicated Servers
Domain Names
SSL Certificates

Responsible for handling technical support cases related to fixing and upgrading customer's servers as well as monitoring and deploying system back ups. Specialized in virtualizing servers.

Education

Full Sail University, Orlando FL

BS in Web Design & Development (Anticipated 2018)
3.6 GPA

Objective

Experienced professional seeks software engineering position that utilized top-notch technical and problem solving skills. My goal is to apply and grow my knowledge of the trade while I complete my bachelor's degree. Available immediately to engage my fast, self-directed learning skills in a company that needs a focused and committed effort.
